Love this extension, support class or id completion in emmet (Zen) coding.
Work great!!!

Anton Stefanov ★★★★★
12/4/2016

Unlike the more popular HTML CSS Class Completion, this one worked without any issues (macos sierra, vs code 1.7.2)

Matt Frowe ★★★★★
11/25/2016

This is really useful and works without a hitch. Extra kudos for the zen-coding support!
